

Bergmann C804-B

The largest all-electric
four-wheel drive transporter

NEW

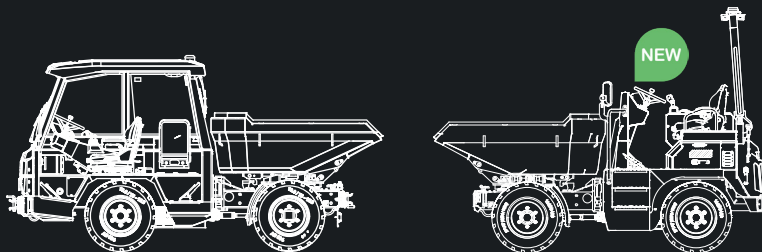

bergmann-dumper.com

BERGMANN

What your project needs now.

That's me, the all-electric **Bergmann C804-B**. **Versatile and compact:** With my compact design and all-terrain mobility, I am perfect for urban construction sites, underground car parks and landscaping. **Efficient working:** As the largest all-electric all-wheel drive transporter with a payload of 3.5 tons, I am ideal for small construction sites and easy to operate - without any previous experience. **Sustainability** - my goal: My electric drive reduces vibrations and wear and extends my service life. I am also particularly quiet, ideal for quiet places.

What have we changed? Simply everything!
The new C804-B: Now even better

Old version: C804-A

NEW: C804-B
